MEMORANDUM FOR: Deputy Director for Administration

SUBJECT : Polygraphing of Industrial Contractor  
Personnel Assigned to the National  
Photographic Interpretation Center

REFERENCE : Memo dtd 3 October 1974 from D/Sec  
to D/NPIC, same subject  
(DD/A 74-3974)

1. This memorandum is for your information.
2. On 3 October 1974 reference was forwarded to your office with a recommendation for your concurrence. Per your request dated 16 October 1974, the Office of Security contacted the DD/S&T on the cited subject to obtain a clear reading as to the "impact" if Industrial Contractors refused to be polygraphed. Attached is a memorandum from the Chief, Support Staff, NPIC, setting forth their assessment of the results of this action.
3. It is the opinion of NPIC and the DD/S&T that it is unlikely that any of the companies involved will refuse to participate in the polygraph program. Additionally, it is pointed out that several of the companies involved are already aware of the Agency policy concerning the polygraphing of individuals requiring visitor-no-escort access to Agency buildings.
4. It appears that there will be little or no adverse impact if the program regarding polygraphing of Industrial Contractor personnel assigned to NPIC is implemented.

  
Charles W. Kane  
Director of Security

1-3: We want to initiate this program ASAP. but it must be recognized that some exceptions might have to be made for individuals presently working on high priority programs should they refuse. In this case we would have the contractor organization seek qualified replacements without disruption of critical services. Judgment will have to be on, case-by-case basis.

MEMORANDUM FOR: Chief, Security Management Staff, DDS&T

REK

SUBJECT : Polygraphing of Contractors

1. Reference is made to the inquiry directed to the Office of Security by the ADDA concerning the "impact" that would result if the contractors refused to be polygraphed.

2. At the present time, there would be approximately 50 contractor employees affected by the implementation of a polygraph program. They represent a half-dozen companies. If the majority of personnel on a contractor team refused to be polygraphed, it could reduce our ability to complete a job in an acceptable time frame with minimum cost. If enough key people took this position, we might consider requesting a waiver of the polygraph requirement until suitable replacements were identified and processed. There would be little likelihood of an individual refusing a polygraph if this requirement is endorsed by his company.

3. Upon adoption of the polygraph program, a representative from the NPIC Security Branch in company with a Logistics Security Officer will visit the cleared senior officials of the contractors involved to obtain their endorsement. They will be informed of the questions to be discussed during these technical interviews and advised that a favorable polygraph is required for all staff employees of the Agency. The company will be assured that any derogatory information developed during the technical interviews would be controlled by CIA and would not be released to any other agency. If, however, any derogatory loyalty information was surfaced, CIA would be required to inform the Federal Bureau of Investigation.

4. It is unlikely that any of the companies will refuse to participate in the polygraph program. Several, such as [redacted] [redacted] are already aware of the Agency's policy concerning the polygraphing of people requiring visitor, no-escort access to Agency buildings.

~~ADMINISTRATIVE-INTERNAL USE ONLY~~

ADMINISTRATIVE-INTERNAL USE ONLY

SUBJECT: Polygraphing of Contractors

5. NPIC would like to move ahead with this polygraph program as soon as possible. In support of a new project, we anticipate the addition of a considerable number of contractor personnel requiring polygraphing.

Chief, Support Staff  
NPIC

Remarks:

1-2 - I agree with the contents, but raise the question whether this should be routed through a concurrence in by the DDS & T. In years past, when NPIC was in the DDI, there was always a conmo problem, & this has been raised to the Directorate level by OS.

3 OCT 1974

MEMORANDUM FOR: Director, National Photographic Interpretation Center

THROUGH : Deputy Director for Administration  
Director of Logistics

SUBJECT : Polygraphing of Industrial Contractor Personnel Assigned to the National Photographic Interpretation Center

1. As you are aware, the Office of Security has recently reviewed its policy with respect to the captioned subject. It is our feeling that Industrial Contractor Personnel who work in the National Photographic Interpretation Center (NPIC) Building on a Visitor-No-Escort basis should meet security standards identical to those of staff employees, in light of their continued exposure to sensitive information. These individuals have in the past been afforded complete background investigations but, except for a few cases, have not been polygraphed. Additionally, polygraphing of Industrial Contractor Personnel at your facility will bring them up to the same security standards as Industrial Contractor Personnel assigned to the Headquarters Building.

2. Therefore, with your concurrence, this Office plans to initiate a program of polygraphing Industrial Contractor Personnel currently assigned to NPIC, as well as polygraphing all new personnel in the same category prior to their assignment to NPIC. Appropriate arrangements for this program will be made in coordination with the Clearance Division of this Office, your Security Staff, and the Office of Logistics. Prior to polygraph interview, it will be necessary for the Director of Logistics to discuss this matter with the appropriate contracting companies to obtain their concurrence.
